EDUCATION

Concordia University

Bachelor of Computer Science – Computer Science Co-op

- Member of the Institute for Co-operative Education
- Relevant Coursework:** Data Structures and Algorithms, Data Analytics, FRANC 211 French as a Second Language, Operating Systems, Advanced Program Design with C++

Montreal, QC

May 2027 (Expected)

PROJECTS

Melody | *Node.js, Express, React, MongoDB, Amazon S3, OpenAI API, Spotify API*

- Built a full-stack **MERN** app offering **AI-powered** music tools for **Spotify**, including playlist generation from **prompts, images, similar songs, and listening history**.
- Built a robust backend **API** using **Node.js** and **Express**, integrating **OpenAI** and **Spotify APIs** to generate personalized playlists and insights.
- Implemented efficient data storage with **MongoDB** and leveraged **Amazon S3** for storing **AI-generated** playlist cover images.

Touch Trust Bank | *Java, JavaFX, OpenCV, Google TTS, CMU Sphinx, MySQL, Google Gemini*

- Designed an **accessible banking app** for visually impaired users, featuring **facial authentication, speech commands, and a color-blind mode** to enhance usability and inclusivity.
- Developed a **Java backend** using **Maven** to implement core banking business logic, integrating **OpenCV** for facial recognition, **Google TTS** for text-to-speech, and **CMU Sphinx** for speech recognition.
- Implemented a **Retrieval-Augmented Generation** system using **Gemini** and **MySQL** to support interactive voice banking commands, and built a responsive desktop interface with **JavaFX**.

Byte Sized Tech News | *React, Flask, Python, NLP, Machine Learning, AWS SES, SQL*

- Built an **automated tech mailing list** platform with a **React frontend** for user sign-ups and a **Flask backend** for managing subscriptions and content delivery.
- Developed a **Python web scraper** using **Selenium** to collect tech articles, trained a **machine learning model** for classification and tagging, and applied **NLP** for article ranking and summarization using **Google Gemini**.
- Automated **daily email generation** as a **cron job** and distributed a well-formatted tech news newsletter each day using **AWS Mail Service**.

Job Salary Prediction (COMP 333) | *Python, Machine Learning, Pandas, Web Scraping, AutoML*

- Developed a **machine learning model** to predict **job salaries** using features extracted from job postings, trained and evaluated through **regression analysis**.
- Integrated, transformed, and prepared data by combining a **pre-existing dataset** with **custom web-scraped data**, applying **feature engineering** for high-quality inputs.
- Augmented missing data using a locally run **LLaMA 8B** model via **Ollama** to improve dataset completeness and overall model performance.

EXPERIENCE

Residential Assistant

Concordia University

- Supported over 1000 residents by fostering a safe, inclusive, and engaging community environment.
- Collaborated with a team of 25 to plan and execute community initiatives and events.
- Served as a liaison between residents and university staff to address concerns effectively.

Aug. 2024 – May. 2025

Montreal, QC

AWARDS

McGill Hacks Hackathon – Best AI Project with Databricks Open Source

Jan. 2025

Concordia Aga Khan Full Tuition Scholarship – Full tuition award valued at \$120,000

May 2023

TECHNICAL SKILLS

Languages & Frameworks: Python, Java, C++, C, JavaScript, SQL, PHP, HTML, CSS, Flask, Django, React, Node.js, Express, JavaFX, Tkinter, Qt, Pandas, OpenCV, Scikit-learn, H2O AutoML, Selenium, BeautifulSoup, Ollama

Tools & Platforms: MongoDB, MySQL, GitHub, AWS (Lambda, Aurora, Mail, S3), Google Cloud (AutoML), Figma, Hostinger, Docker, Databricks, Postman, Blender, Scene Builder

Software: MS Word, Excel, PowerPoint, Access, Adobe Photoshop, Illustrator, Premiere Pro, After Effects

IDEs: IntelliJ, VS Code, Visual Studio

Other: Project Management Cycle, Agile Methodology, English (Fluent), Swahili (Fluent), French (Beginner), Microsoft Excel/Access Certified, CPR and First Aid (valid until 2026)
